How to work?

Our Services

We offer custom design options, high-quality materials, timely production, and attentive customer support to meet diverse client needs.

1. Inquiry

Send us your design draft, or simply provide your logo, and we will complete the design for you. We will confirm the order details before proceeding.

2. Sampling

We will carefully design and create samples for you. We will send you photos of the samples for final confirmation. Of course, we can also mail the physical samples to you if needed.

40 mini

3. Mass Production

After sample approval, we will begin mass production by sourcing materials, cutting fabrics, and customizing the design while assembling the approved elements.

4. Delivery

After sample approval, we will begin mass production by sourcing materials, cutting fabrics, customizing designs with embroidery and printing, and assembling according to the approved specifications.
